

Acism Turns 25: Solving Software's "Invisible" Engineering Problems

PUNE, Maharashtra, July 17, 2026 — Acism Software Private Limited, a Pune-based research-oriented software services company, today celebrated its Silver Jubilee at the Mahratta Chamber of Commerce, Industries and Agriculture [MCCIA].

The evening brought together key client representatives, industry leaders, the Acism team, and well-wishers.

"Invisible" Code Problems and Their Resolution

In his keynote address, Founder Director Ashish Belagali reflected on the core thought process that shaped Acism.

"Early in my career I got exposed to 'invisible' code-level problems that risked the very existence of a company. The industry typically attributes these to HR or management, but at the core, they are technology problems," said Belagali, "That long quest to solve them charted a very unconventional trajectory. It led to the invention of Xsemble as well."

Xsemble is a proprietary technology that uses a visual X-flowchart as a blueprint for software. Belagali noted that it grants Acism some key strengths: development of large and complex applications, transparency of working, and ease of long-term maintenance and enhancement.

Acism bundles services around Xsemble, so that it can own and solve real business problems for customers. The company is now looking to scale its services to larger enterprises and engagements.

Customer Validation

Leaders from Acism's recent customers shared their experience:

- Mr. Swapnil Barve, Mr. Kunal Athalye, and Mr. Deepak Dunakhe from T-Systems ICT India Pvt Ltd and Hytech Automation confirmed that software solutions delivered by Acism are in day-to-day use in their respective companies.
- They commended the Acism team for prompt and effective customer service and acknowledged that the benefits of Xsemble have reached them in terms of high quality and flexibility.

Team, Partners, and the Next Generation

Entrepreneurs Mr. Kishor Kakatkar, Mr. Nirmalya Sengupta, Ms. Aparna Katkar, and Mr. Shrikant Kulkarni shared insights from their association with Acism and appreciated the value addition the company provides.

Mr. Aniruddha Deshpande, Project Manager on an Acism engagement, shared his "3C's formula" for successful delivery. Ms. Prachi Majgaokar, an intern at Acism, spoke about how the company guides interns to become industry-ready. The event concluded with a vote of thanks by Ms. Surekha Belagali.

Silver Jubilee Offers

To mark the company's actual anniversary on July 19, Acism will unveil special limited-time offers and freebies on its website: <https://acism.com>
